Glen Sampert
General Manager
The Westin Los Angeles Airport
5400 W. Century Boulevard Hotel
Los Angeles, CA 90045

Dear Mr. Sampert:

It is my great pleasure to congratulate The Westin Los Angeles Airport Hotel as one of Los Angeles' green pioneers. Your certification as a Los Angeles Silver Level Green Hotel is quite an accomplishment. The Westin Los Angeles Airport Hotel is one of only five hotels to meet the stringent requirements for certification and to become an LA Green Hotel.

The City of Los Angeles commends The Westin Los Angeles Airport Hotel's leadership and appreciates the collective effort of the management and service staff to achieve this certification. This goal could not have been accomplished without your commitment and without the dedication of the hotel staff to creating a green and sustainable future for the hotel industry and Los Angeles. To be certified green, efficiencies must be achieved in every department. I know this was a company-wide effort involving every employee's pledge to ensure your hotel met the Green Seal certification standards.

Personally, the greening of LA is an important issue to me. It is a significant economic and environmental issue for the residents of Los Angeles. As we work to make Los Angeles a place that is environmentally safe and friendly, your partnership in this effort helps make LA an even more alluring destination for both visitors and residents alike. Thank you for helping to make Los Angeles the greenest big city in the country.

Very truly yours,

ANTONIO R. VILLARAIGOSA
Mayor
